All eyes on...eyes

Shu Uemura Business Unit Manager Tina Tinio notes, "More and more people are becoming experimental with their lashes". Proof? The success of Shu Uemura's colored lashes. Tina has good news to all lash-fanatics. This month, Shu Uemura launches their **Lash Bar**, literally a "buffet" of falsies—from simple flares to colored metallics. There will also be a stylist to help you figure out what suits you. Expect a dazzling merchandising concept—and a whole lot of fab fauxs!

Feel like going from brown-eyed to blue-eyed? Why not? **FreshLook Cosmetic Contact Colored Lenses** offer stunning colors (gray, blue, green and brown) and effects, Moonlight (silver glow), Eden (green glimmer), Autumn (bronzy sheen), and Sunrise (gold sparkle). How to pick the right color for you? Go for a hue that complements your hair color and skin tone.
